

# Carbon Reduction Plan

Supplier name: Anchored Beacon Limited

Publication date: 1 May 2025

## Commitment to achieving Net Zero

Anchored Beacon Limited is committed to achieving Net Zero greenhouse gas emissions by 2050 in line with UK government policy and social care sector standards.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2024</b>													
<b>Additional Details relating to the Baseline Emissions calculations.</b>													
As a newly established organisation, Anchored Beacon Limited had not previously assessed or reported emissions. The 2024 reporting period will serve as our baseline. Scope 3 data may be limited in the first year and will improve as reporting structures mature.													
<b>Baseline year emissions:</b>													
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>

	Procurement Cleaning products, food, consumables ICT/Equipment Computers, white goods, electronics
<b>Total Emissions</b>	25

**Emissions reduction targets**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

Anchored Beacon Limited aims to reduce its carbon emissions to 15 tCO2e by 2030, representing a 40% reduction from the 2024 baseline.

We will review and update our reduction trajectory annually.

**Carbon Reduction Projects**

**Completed Initiatives (2024–2025):**

- Implemented LED lighting and motion sensors at supported living property.
- Digitized care documentation to reduce paper usage.
- Introduced remote staff coordination to reduce travel.
- Initiated recycling and food waste separation programs.

Estimated Emissions Reduction: 2 tCO2e (8% reduction against baseline)

**Planned Initiatives:**

- Transition to electric vehicles for visits (by 2027)
- Upgrade to renewable energy contracts for all sites (by 2026)
- Staff sustainability training and green procurement policy (from 2025)
- Joining ISO 14001 Environmental Management System certification (by 2026)

**Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans

and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

**Signed on behalf of the Supplier:**
